

## Errata

The publishers and the authors would like to make the following corrections:

Braun, G., Evron, Y., Malkin, S. and Avron, M., Proton flow through the ATP synthase in chloroplasts regulates the distribution of light energy between PS I and PS II (1991) FEBS Letters 280, 57-60.

On p. 58, Section 2.4, the equation which reads

'follows [11]:  $\alpha > > -F_m - F_o$

$\alpha > > > F_m - F_s$ '

should read

'follows [11]:  $\beta/\alpha = (F_m - F_o)/(F_m - F_s)$ '

Mitchell, R., Mitchell, P. and Rich, P.R., The assignment of the 655 nm spectral band of cytochrome oxidase (1991) FEBS Letters 280, 321-324

Table I was omitted from the text and is as follows:

Table I

Matrix for deconvolution of titration spectra

Measured $\lambda$	550-556.5	556-545.5	604 (588,620)	660 (636,684)
Cyt. c	1.0	0.024	0.014	0.003
Cyt. f	0.011	1.0	0.024	0.008
a+a <sub>3</sub>	-0.104	0.122	1.0	-0.018
655nm band	0	0	0	1.0
